

Tumeka Burston

JUNIOR WEB DEVELOPER

PROFILE

A fresh full-stack developer based in Bristol, UK. Enjoys back-end development, using Laravel and keen to continue developing database architecture and deployment skills. Previously worked in Hospitality, Retail and in Offices over the last 8 years, whilst consistently demonstrating the ability to **adapt to new environments** and challenges. A strong worker skilled in **team-work, team leadership, Communication, Problem Solving** with **user-friendly solutions** and **detail-orientated**.

CURRENT PROJECTS

CODING

Currently volunteering and collaborating with others at Code Hub in Bristol to help re-build their Bristol Tech Fair website using React.js and Node.js.

DEVELOPMENT

Through an 8 week online course I am learning experimental JavaScript using libraries such as three.js, matter.js and PIXI.js. This course is being delivered by SuperHi.

PERSONAL

Using React.js and an API in Laravel, I am embarking on creating an Animal Crossing Islanders tracking app where user will be able to create a list of their current Islanders and a dreamie's Wishlist for the Islanders they wish to have. User will also have the ability to share their wishlist with friends.

EDUCATION

Full Stack Software Development, DevelopMe_

Sep 2020 - Dec 2020

Intensive project-driven 12 week software development on the webstack course, taught by industry professionals using best practice approaches.

Professional Musicianship, University of Bristol

Sep 2013 - July 2016

A 3 year degree course learning business models, live sound engineering, working with and managing people, live performance best practices and theory concepts. Final Year Project (Dissertation): Composing music and Sound Design to Video Games. 2:1 was achieved on this degree.
